

DYNAMIC, GROWING & GLOBAL COMPANY SEEKS **LAWYER FOR BUSINESS FACING ROLE WITH EXCELLENT CAREER DEVELOPMENT OPPORTUNITIES**

Greater London - £competitive + excellent benefits

Cummins is a global engineering leader that designs, manufactures, sells and services engines, power generation systems and related technologies. Headquartered in Columbus, Indiana, the company serves customers in more than 190 countries through its network of 600 company-owned and independent distributor facilities and more than 5,000 dealer locations. An award winning, Fortune 150 employer with sales exceeding \$19bn last year, it has well developed plans for further profitable growth.

Due to continuing growth and success, an exciting opportunity has arisen for a lawyer within the UK & Europe legal team. The role will be extremely broad and carry wide ranging and international responsibilities, including working closely with the business on corporate transactions and joint ventures, general commercial matters (such as advising on product and technology agreements), overseeing litigation, providing training to the business and managing external counsel.

To take on this role, you will have trained with a leading law firm or international corporate and now have around 3 to 6 years' PQE. Alternatively you may be more qualified and be looking to return to work after a career break. You will have a solid transactional background (whether corporate, projects or commercial) and be looking to use this base to take on a broader range of matters. In-house experience though very helpful is not essential.

This is a business facing role and therefore it is crucial that you possess sound commercial judgement, a "can do" attitude and the inter-personal skills to work with a wide range of people from different cultural and professional backgrounds. Whilst not a requirement, a second European language would also be very attractive.

This is a truly exceptional opportunity for an aspiring in-house lawyer who relishes variety and challenge. In addition to a competitive salary and benefits package, Cummins can also offer fantastic career development opportunities, both in the UK and overseas.
