

Fantastic Opportunity for an **Experienced Lawyer** with **Leadership Potential** to join a Dynamic, Growing & **Global Company**

EMEA COUNSEL • Greater London

Cummins is a global engineering leader that designs, manufactures, sells and services engines, power generation systems and related technologies. Headquartered in Columbus, Indiana, the company serves customers in more than 190 countries through its network of 550 company-owned and independent distributor facilities and more than 5,000 dealer locations. An award winning, Fortune 250 employer with sales of \$13bn last year, the company expects sales to increase to \$18bn this year and it has well developed plans for further rapid, profitable growth.

Due to this continued growth and success, an exciting opportunity (which offers genuine prospects for development) has arisen for an experienced lawyer within the EMEA legal team. The role will be extremely broad and carry wide ranging and international responsibilities, including working closely with business leaders on heavy duty transactions and joint ventures, general commercial matters (such as advising on product and technology agreements), overseeing litigation, providing training to the business and managing external counsel.

The position would suit a lawyer with a transactional background (whether corporate, projects or commercial) who has trained with a leading law firm. In-house experience though very helpful is not essential. This is a business facing role and it is crucial that you possess sound commercial judgement, a "can do" attitude and the inter-personal skills to work with a wide range of people with very different cultural and professional backgrounds. You will work closely with senior management as a trusted business advisor and therefore it is imperative that you are credible, inspire confidence and have strong communication and leadership skills.

This is a truly exceptional opportunity for an aspiring in-house lawyer who relishes variety and challenge. As well as the chance to be part of a highly successful and international business, Cummins can offer the appointed candidate a genuine track to a more senior, leadership role based in the UK or overseas. In addition, a competitive salary and benefits package is available.
